Aurora Borealis on top of the Star Artic Hotel

In the early 2016, two families who shared the same passion decided to establish a hotel on the top of the Kaunispää mountain in Saariselkä. Why? The reason is simple – we are in love with this Arctic region.

The beauty of Finnish Lapland is so pure and powerful, like when the wildness is bathing in the aureate light of the midnight sun or the Aurora Borealis dancing in the sky. Here, it's like living in a dream from which you don't want to wake up, a spell you are completely mesmerized by. Therefore, we want to share our love with you by connecting you with the best that Lapland has to offer.

LOCATION

#### THE HOTEL

On Top of the Beauty Hill

Star Arctic Hotel is situated in Saariselkä, 270 km north of the Arctic Circle in Lapland, Finland. The northernmost ski resort of Europe is also located in the same area. There is an excellent transportation network in the area, despite being in the heart of the Arctic. The European highway number 75 runs through the area and it is only 25 km drive to Ivalo International Airport.

Star Arctic Hotel is located on the top of the "Beauty Hill" of Saariselkä, which is the highest location in the entire region. From inside the hotel or hotel area, you can experience the full view of Saariselkä as well as the beautiful Arctic landscapes in the distance.

Here, there is a pure and pristine natural environment and unique landscape. The Nordic modern civilization is perfectly integrated with Lapland's own culture.

The hotel's exterior design blends harmoniously with the surroundings of the nature. All Scenic View Suites are equipped with large glass windows facing toward the landscape, which is a perfect balance of modern architecture embodied with simple elegance.
